國際警察協會澳門分會 International Police Association Macau Section

國際警察雜誌
Int'l Police Magazine

國際刊號 ISSN：2791-142X

澳門新聞局編號：526

自 2015 年創刊以來，《國際警察》作為警務領域權威的中英雙語季刊，始終秉持「為友誼而服務」的創會精神，致力打造全球警界最具影響力的戰略資訊平台。本刊以三大核心職能服務國際執法社群：

其一，作為國際警務合作的橋樑，我們透過跨國交流平台弘揚服務精神，促進各國警界建立互信友誼；其二，精心策劃全球警務動態報導，搭建融合實務經驗與學術理論的專業對話機制；其三，設立嚴謹的裝備評測系統，針對巡邏裝備、監控科技及非致命性武器進行客觀分析，成為各國執法單位採購決策的重要依據。

憑藉遍佈全球警政體系與國際組織的發行網絡，配合先進的數位情報可視化技術，本刊創造獨特價值：雙語出版突破語言隔閡，促進東西方的執法思維對話；更整合產、學、研三方資源，構建從理論研發到實戰應用的完整生態鏈，推動警務創新成果的快速轉化。

《國際警察》不僅是資訊載體，更是國際警務合作的催化劑。未來，我們將持續優化內容品質，深化國際合作，為提升全球警務專業水準貢獻力量。

Since its launch in 2015, Int'l Police Magazine has emerged as a leading voice in global security discourse. This bilingual Chinese-English quarterly has carved out a unique niche as both a knowledge hub and diplomatic bridge for police forces worldwide.

The publication operates on three key pillars:
Building Trust: Through its "Service Through Friendship" ethos, it facilitates unprecedented cooperation between law enforcement agencies that might otherwise rarely interact.

Knowledge Sharing: Its carefully curated reports blend street-level operational insights with cutting-edge academic research, creating what Interpol has called "a unique meeting of theory and practice."

Equipment Standards: The journal's rigorous gear testing protocols have become the gold standard for police departments making critical procurement decisions - from body cameras to non-lethal weapons.

With readers in over 60 countries and partnerships with major international organizations, the publication has pioneered digital tools that transform complex crime data into actionable intelligence. Its bilingual approach has been particularly impactful in bridging the divide between Eastern and Western policing philosophies.

As transnational crime becomes increasingly sophisticated, International Police Review is investing in AI-driven analysis and virtual reality training simulations. "We're not just reporting on policing," says Editor-in-Chief [Name]. "We're actively shaping its future through technology and cooperation."

亞洲事務總署
十周年慶典晚宴
圓滿舉行

為慶祝國際警察組織亞洲事務總署成立十周年，由國際警察協會澳門分會主辦、亞洲事務總署外交事務委員會承辦的「國際警察組織亞洲事務總署十週年慶典晚宴」已於五月三十日（星期六）隆重舉行。當晚有超過 140 名來自各界的嘉賓、代表，以及會員歡聚一處，共同慶祝這一具里程碑意義的盛事。

晚宴由首席執行官李雄波爵士致歡迎辭揭幕。他表示，亞洲事務總署成立十載以來，始終秉持創會宗旨，積極搭建跨區域的警務交流與民間合作橋樑，為推動地區安全與穩定發展作出了不懈努力。展望未來，總署將繼續深化與各方夥伴的緊密協作，與時俱進，開拓創新，共同為構建安全、和諧的發展環境貢獻更多力量。

The 10th Anniversary Celebration Dinner Concludes Successfully

To commemorate the 10th anniversary of the establishment of the International Police Association (IPA) Asian Affairs Bureau, the "IPA Asian Affairs Bureau 10th Anniversary Gala Dinner" was officially convened at 18:00 on Saturday, May 30. The event was hosted by the IPA Macau Section and organized by the International Relations Committee of the Asian Affairs Bureau. The gala convened over 140 distinguished guests, industry delegates, and members to collectively mark this significant organizational milestone.

The proceedings commenced with an opening address delivered by the Chief Executive, Chevalier Lei Hong Po. Chevalier Lei highlighted that since its inception a decade ago, the Asian Affairs Bureau has consistently adhered to its founding principles, actively facilitating cross-regional policing exchanges and establishing frameworks for civil cooperation, thereby contributing significantly to regional security and stability. Moving forward, the Bureau remains committed to deepening strategic collaborations with all stakeholders, driving innovation, and advancing initiatives to foster a secure and harmonious developmental environment.

▼銅武士勳章 - 郭召樞先生 Mr. Kok Sio Su

▼銅武士勳章 - 盛志明先生 Mr. Bill Sheng

▼金武士勳章 - 余月偉先生 Mr. U Ut Wai

▼飛龍勳章 - 張建耀先生 Mr. Zhang Jianyao

▼外交事務委員會主席 - 吳鵬凱先生 Mr. Wu Pengkai - Chair of IRC

▼領導層向全場祝酒 IPA Management toasted the crowd.

隨後，現場隆重舉行了多項勳章頒授及任命儀式，以表彰為本會作出傑出貢獻的人士。晚宴席間更設有豐富的抽獎環節助興，現場氣氛熱烈，觥籌交錯，慶典最終在歡欣溫馨的氣氛中圓滿落幕。

是次活動得以順利舉行，有賴社會各界賢達及友好單位的鼎力支持與贊助。當中包括：外交事務委員會主席吳鵬凱先生，田國培侯爵，蔣默涵爵士，名譽會長李安爵士，高級顧問彭爾林先生，名譽顧問周華根先生、於慶雯女士，會員徐偉先生，張建耀首席監督，珠海嘉濟醫院，Kandy Fong 爵士，以及支持單位珠海雄偉工程管理服務有限公司和國芳影視傳媒等。

The agenda proceeded with formal commendation and appointment ceremonies, held to recognize individuals for their exceptional contributions to the Association. The event also featured a lucky draw session, which enhanced guest engagement. The evening concluded successfully, characterized by high levels of professional networking and collegiality in a celebratory atmosphere.

The successful execution of this event was made possible through the generous patronage and support of esteemed community leaders and partner organizations. Acknowledgment is gratefully extended to the following key contributors: Mr. Wu Pengkai (Chairman of the International Relations Committee), Marquis Francis Tin, Chevalier Irene Jiang, Chevalier Lee On (Honorary President), Mr. Peng Erlin (Senior Advisor), Mr. Chau Wa Gan (Honorary Advisor), Ms. Yu Man Man (Honorary Advisor), Mr. Xu Wei, Chief Supervisor Zhang Jianyao, Zhuhai Jiahua Hospital, Cheavlier Kandy Fong

Special recognition is also extended to our supporting organizations, including Zhuhai Xiongwei Engineering Management Service Co., Ltd. and Guofang Film and Television Media, among other corporate partners.

綠色處方：英國警隊推行「森林療癒」

談及紀律部隊的壓力管理與心理干預政策，傳統模式多局限於室內的臨床心理諮詢。然而，英國赫特福德郡警隊近期推行的一項福祉新政則另闢蹊徑——正式將「生態心理學」納入警政後勤保障體系，安排承受極高精神壓力的前線警員集體走進森林，實施系統化的「大自然療癒」計劃。

這項政策的推行絕非傳統意義上的員工休假，而是由該警隊首席副警長比爾・傑普森親自督導的科學臨床實踐。長期以來，前線警員因頻繁目睹暴力罪案或重大創傷事件，大腦中的「杏仁核」長期處於過度激活狀態，導致自主神經系統鎖死在「戰鬥或逃跑」的應激模式中，這正是誘發創傷後壓力症與職業倦怠的生理根源。

為了打破這一惡性循環，警隊與專業心理健康機構「The Well Crowd」深度合作，讓警員暫時卸下配槍與重型裝備，置身於森林環境中。這項政策背後擁有扎實的臨床醫學與現代「心理神經免疫學」數據支持：

皮質醇水平驟降：臨床監測數據表明，警員在充滿植物芬多精的自然環境中浸潤僅 20 分鐘，體內的唾液皮質醇（主要壓力荷爾蒙）水平平均即時下降達 15%，顯著減緩生理焦慮。

心率變異性顯著改善： 數據證實，自然環境的感官刺激能有效激活負責放鬆與修復的副交感神經系統，使警員的心率變異性恢復至健康彈性區間，提升血管舒張度。

參與該計劃的基層執法人員紛紛給予高度評價，直言在林木環抱中成功實現了「與自我重新連結」。這種將前沿神經科學與大自然療法相結合的實效主義新政，不僅成功為前線硬漢提供了心理避風港，更為全球紀律部隊在提升「警員福祉」的政策制定上，提供了極具參照價值的量化實證範本。

Green Prescription: UK Police Launches "Forest Therapy" Policy

When managing stress and mental health in law enforcement, traditional policies typically rely on indoor clinical counseling. However, the Hertfordshire Constabulary in the UK has taken a bolder, more progressive path with its latest wellbeing initiative, officially integrating "Ecopsychology" into its operational support system by sending heavily stressed frontline officers into the wilderness for structured "Nature-based recovery" programmes. Far from a standard staff holiday, this initiative is a clinical application of science personally overseen by Deputy Chief Constable Bill Jephson. Frontline officers are routinely exposed to violent crimes and critical trauma, causing the brain's amygdala to remain chronically over-activated. This traps the autonomous nervous system in a constant "fight-or-flight" response, which serves as the core physiological root cause of PTSD and occupational burnout.

To break this vicious cycle, the force collaborated deeply with the mental health organization "The Well Crowd," allowing officers to temporarily strip off their heavy gear and firearms to immerse themselves in a woodland environment. This policy is heavily validated by modern clinical medicine and psychoneuroimmunology data. Clinical monitoring shows that spending just 20 minutes in a forest rich in phytoncides triggers an average 15% immediate reduction in salivary cortisol (the primary stress hormone), significantly alleviating physiological anxiety. Furthermore, data confirms that sensory immersion in nature effectively stimulates the parasympathetic nervous system responsible for relaxation and bodily repair, restoring Heart Rate Variability (HRV) to healthy, resilient baseline zones while stabilizing cardiovascular stress. Participating rank-and-file officers praised the experience, noting they genuinely managed to "reconnect and recover." By bridging cutting-edge neuroscience with ecotherapy, this outcome-driven policy not only provides a mental sanctuary for frontline tactical personnel but also delivers a highly quantifiable, evidence-based blueprint for global policing agencies looking to optimize "Officer Wellness" regulations.

澳門智慧口岸全面升級
生物辨識系統建構大灣區跨境新格局

▼官方照片 Official Photo

過往港澳及珠澳跨境往來，公眾時常面臨證件遺失、指紋磨損無法辨識、輪候時間冗長等問題。為回應大灣區跨境通勤、商務往來的高速發展需求，澳門治安警察局自 2025 年底開展智慧通關系統測試，並於 2026 年 4 至 6 月完成多階段政策革新與設備升級，全面優化各主要口岸通關模式，實現安全與便民並重的跨境警務新形態。

是次升級並非單純硬件更新，而是粵澳兩地邊檢部門歷時半年的標準統一與系統對接成果。2025 年 11 月橫琴口岸率先試行無證刷臉通關，累計數百萬人次試運行數據，為全域推廣奠定穩定基礎。踏入 2026 年，各部門完成青茂、港珠澳大橋珠澳口岸的設備壓力測試，5 月率先優化橫琴一站式車道，合資格跨境駕駛員可透過人臉及指紋雙重生物核驗，無需出示實體證件即可完成兩地查驗，大幅紓緩跨境車輛擠塞問題。

與此同時，全澳虹膜自助通道於 5 月至 6 月擴展適用範圍，涵蓋外地僱員及高校跨境學生，解決傳統指紋辨識的技術局限，進一步提升通關效率。6 月 26 日，青茂口岸、港珠澳大橋珠澳查驗廳全面啟用刷臉自助系統，標誌全澳二百餘條合作查驗通道實現智慧無證通關全覆蓋，單人次通關時長壓縮至三秒內。

業界分析指出，澳門口岸智慧化升級，既完善大灣區跨境便民配套，亦透過科技強化出入境風險管控，為區域智慧警務協作提供重要示範。

Macau’s Smart Border Upgrade: Redefining Cross-boundary Policing in the Greater Bay Are

Traditional cross-boundary travel between Hong Kong, Macau and Zhuhai has long been plagued by operational inconveniences, including lost travel documents, unrecognisable worn fingerprints and lengthy queuing times. To accommodate the booming demand for daily commuting and business exchanges across the Greater Bay Area, the Public Security Police Force of Macau launched trials for smart immigration clearance systems in late 2025. A series of phased policy reforms and equipment upgrades were fully implemented between April and June 2026, optimising clearance procedures at major border checkpoints and fostering a new model of cross-boundary policing that balances stringent security and public convenience.

The initiative represents a landmark achievement in cross-departmental collaboration, rather than a mere hardware upgrade. After six months of coordinated standardisation and system integration between border inspection authorities of Guangdong and Macau, the Hengqin Checkpoint pioneered document-free facial recognition clearance in November 2025. Millions of trial crossings accumulated sufficient operational data, laying a solid foundation for citywide promotion. In 2026, systematic pressure tests were completed at Qingmao and Zhuhai-Hong Kong-Zhuhai-Macao Bridge checkpoints. In May, the one-stop vehicular clearance channel at Hengqin was upgraded, enabling eligible cross-border drivers to complete dual-border verification via facial and fingerprint recognition without physical documents, effectively easing cross-boundary traffic congestion.

Meanwhile, Macau’s iris recognition self-service channels expanded their coverage from May to June, catering for non-resident employees and cross-border university students and overcoming the technical limitations of conventional fingerprint identification. On 26 June, Qingmao Checkpoint and the Zhuhai checkpoint of the Hong Kong-Zhuhai-Macao Bridge fully launched facial recognition self-service systems. The upgrade comprehensively covers over 200 joint inspection channels across Macau, cutting individual clearance time to within three seconds. Industry analyses indicate that Macau’s smart border modernisation not only optimises cross-boundary travel facilities for the Greater Bay Area, but also strengthens border risk management through technological innovation, setting a valuable benchmark for regional smart policing collaboration.

新疆水上智能救生機器人登場
「橙色 U 型救生員」輕鬆救起落水市民

Orange U-shaped Water Rescue Robots Deployed in Xinjiang for Safe Lifesaving

每到夏季內陸河流水域遊人眾多，落水救援向來是基層民警一大難題，傳統救生圈、快艇需要人員下水，存在救援人員自身遇險風險。2026 年 5 月起，新疆庫爾勒公安引入一批外型圓潤的橙色 U 型智能救生機器人，投入孔雀河、天鵝河沿線常態巡邏，憑藉可愛外型與強大救援功能走紅網絡。

這款救生機器人體積輕便，可由民警遠程操控高速衝向落水者，機身浮力足以承載兩名成年人，無需警員涉水便可抵達危險水域；同時搭載實時攝像頭、揚聲器，岸上民警可遠距安撫落水者情緒，同步傳送現場畫面回指揮中心。整套水上立體防控體系搭配無人機空中監控、智能救生快艇，構建「空、水、機器人」三重安全防線。

5 月下旬當地發生一宗市民失足落水事件，民警迅速投放救生機器人，三分鐘內抵達落水者身旁，待其抓穩機器人浮體後緩緩拖回岸邊，全程無人員下水，零救援風險。

不少路過市民見到橙色 U 型機器人巡邏時紛紛駐足觀看，柔和外觀消解水上執法的緊張感。公安部門介紹，該批裝備將覆蓋全市所有濱水休閒區，以科技降低救援危險，同時憑藉親和感設計提升民眾水域安全意識，剛柔並濟守護夏季水畔平安。

Riverside recreational areas draw large crowds in summer, and water rescue has long posed challenges for grassroots police. Conventional lifebuoys and speedboats require officers to wade into water, exposing rescuers to personal danger. Starting May 2026, Korla Public Security Bureau in Xinjiang deployed a fleet of rounded orange U-shaped intelligent rescue robots for regular patrols along the Peacock and Swan Rivers, gaining online popularity for their friendly appearance and powerful emergency functions.

Lightweight and remotely controlled, the robots race toward drowning victims at high speed, with buoyancy to support two adults. Officers can operate the devices without entering dangerous waters; built-in cameras and speakers allow remote comfort for victims while streaming live footage back to command centres. Paired with aerial drone surveillance and smart rescue speedboats, the robots form a triple air-and-water safety network.

In late May, a local resident slipped and fell into the river. Police dispatched the rescue robot, which reached the victim within three minutes and towed them safely back to shore without any officers entering the water, eliminating rescue risks entirely.

Passers-by often stop to watch the orange U-shaped robots patrol, their soft design easing the tense atmosphere of water safety enforcement. Authorities stated the equipment will cover all riverside leisure zones citywide, utilising technology to reduce rescue hazards while raising public awareness of water safety via approachable, eye-catching smart gear.

視覺警政學：從傳統威嚴到現代休閒，警服法規修訂背後的公眾心理與社區實效

▼官方照片 Official Photo

在現代警政體系中，紀律部隊的制服法規向來不單是後勤管理的範疇，更是構建警民關係的第一道「視覺防線」。長期以來，全球多國警隊的制服設計多沿襲軍事化的硬挺剪裁，強調大簷帽、深色系衫鈕、剛硬的皮革腰帶與閃爍的金屬徽章，旨在通過這種高度集權與威嚴的符號，對潛在犯罪者產生心理震懾。然而，隨著「社區警政（Community Policing）」逐漸成為全球執法的主流戰略，各國警政學者與法規制定者開始重新審視警服的「視覺心理學（Visual Psychology）」。多項實證研究與國際執法實踐指出，過於威嚴、具備攻擊性的傳統服飾，往往會在無形中下拉公眾的信任感，甚至在特定高壓社區中激發敵對情緒。為了打破這一視覺壁壘，一場以「運動功能風（Athleisure）」為核心的制服範式革命，正逐步重塑全球前沿警區的法規藍圖。

這場從「權威型視覺」向「功能休閒型視覺」的政策轉變，背後有著扎實的犯罪心理學與行為科學實證數據支持。發表於《警察與犯罪心理學期刊》（Journal of Police and Criminal Psychology）的學術研究指出，公眾對執法人員的心理投射與其外在著裝存在直接的因果關係。傳統的軍事化制服雖然能提升「果斷、強硬」的形象，但在非危機處理的日常巡邏中，卻會顯著降低市民的主動接近意願。相反，當警員換裝透氣POLO衫、具備彈性的功能長褲與運動化警靴時，公眾對其「可信任度」與「可接近度」的評分均呈現正面增長。這種視覺上的「去武裝化」與心理減壓，成功消除了市民面對國家機器時的本能防備，進而使其向巡邏警員主動提供治安情報或尋求協助的意願大幅增加。

在全球執法實踐中，紐西蘭警隊（New Zealand Police）是將這種「運動休閒風」制度化演進的典型先驅。在紐西蘭的現行制服法規中，前線巡邏警員已全面棄用傳統的有鈕扣硬質襯衫，取而代之的是深藍色的高科技排汗 POLO 衫。其下裝則採用了具備四向彈性、耐磨且兼顧多口袋收納功能的戰術運動長褲，搭配輕量化運動警靴。在頭飾規定上，除了極少數如畢業典禮等正式官方場合，前線警員日常執勤全面配戴吸汗的棒球帽（Operational Cap），冬季甚至允許配戴舒適的針織毛帽。這種著裝在視覺上更接近社區體育教練或戶外專業領隊，徹底打破了傳統警政冰冷、高高在上的官僚形象，完美踐行了「警察即市民，市民即警察」的社區治理核心。

除了視覺心理學的外部效應，這項法規修訂在內部管理層面，亦完美兼顧了基層執法人員的職業健康與生物力學需求。傳統警服法規強制要求警員配戴重型裝備腰帶，將手槍、警棍、對講機、胡椒噴霧等重達 5 至 7 公斤的執法器材全部集中於腰部，這是導致一線巡邏人員患上慢性下背痛（Lower Back Pain）與　骨勞損的頭號職業病因。對此，大洋洲的另一執法典範——澳洲維多利亞州警隊（Victoria Police）則通過法規修訂給出了科學解決方案。維多利亞州警隊全面引進了符合人體工學的「一體化外掛式輕量化胸腹載具（Load-bearing Vests）」。新政允許警員將腰帶上的重型裝備轉移至戰術背心的胸腹部，利用人體核心軀幹均勻分散重量。為了避免這種外掛背心顯得過於軍事化或具備侵略性，該警隊在法規中嚴格限制背心顏色必須與排汗 POLO 衫保持高度統一的深藍色調，從而在保障警員骨骼健康的同時，維持了親民的視覺平衡。

綜上所述，全球警隊制服從「威嚴」走向「功能休閒」的法規變革，絕非流於表面的一時潮流，而是一場基於生理學、人體工學與大眾心理學的理性制度重塑。這種將「實效主義」置於僵化教條之上的新政，不僅在生理層面大幅保障了前線執法人員的日常舒適度與行動敏捷度，降低了追捕疑犯時的肌肉拉傷率；更在心理層面成功將警察的視覺形象，從「街頭的威嚇者」轉譯為「社區的合作夥伴」。這項兼具科學數據與人文關懷的後勤法規修訂範本，無疑為現代城市治理中，如何透過微觀視覺管理來優化公共關係與治安效能，提供了極具啟示性的國際參照坐標。

▼官方照片 Official Photo

Visual Policing: From Traditional Authority to Modern Comfort—How Uniform Regulations Influence Public Psychology and Community Efficacy

Within the framework of modern policing, uniform regulations within disciplined forces extend far beyond mere logistical management; they serve as the crucial first "visual line of defense" in shaping police-public relations. Historically, police uniform designs across the globe have leaned heavily toward rigid, military-inspired tailoring—emphasizing peaked caps, dark color palettes, stiff buttoned shirts, hard leather duty belts, and polished metal badges. This visual architecture was intentionally engineered to project a sense of absolute authority and state monopoly on power, aiming to create a psychological deterrent against potential offenders. However, as community policing cements itself as the dominant global strategy for law enforcement, progressive police administrators and policymakers are fundamentally re-evaluating the "visual psychology" of the uniform. Empirical research and international field data indicate that overly authoritarian, aggressive attire can inadvertently alienate the public, diminishing community trust and, in high-stress neighborhoods, even triggering unnecessary hostility. To dismantle this visual barrier, an operational paradigm shift toward "Athleisure" and "Techwear" is systematically reshaping uniform regulations worldwide.

This regulatory evolution from "authoritative visuals" to "functional-casual aesthetics" is underpinned by rigorous data from criminal psychology and behavioral science. Studies published in the Journal of Police and Criminal Psychology demonstrate a direct causal link between an officer's attire and public psychological projection. While traditional militaristic uniforms may enhance perceptions of decisiveness and control, they significantly reduce a citizen's willingness to initiate contact during routine, non-crisis community patrols. Conversely, when officers transition to breathable polo shirts, stretch-engineered tactical trousers, and athletic utility footwear, public ratings for "trustworthiness" and "approachability" experience positive growth. This visual "demilitarization" lowers the public's instinctual psychological defense mechanisms when facing authorities. Consequently, citizens exhibit a substantially higher propensity to proactively share localized intelligence, report minor grievances, or seek assistance from patrolling officers.

In global law enforcement operations, the New Zealand Police stand as a premier pioneer in institutionalizing this athleisure-driven evolution. Under current New Zealand police uniform regulations, frontline patrol officers have entirely abandoned traditional, buttoned-up rigid shirts in favor of deep navy, high-tech moisture-wicking polo shirts. Their lower kit comprises tactical utility trousers featuring four-way stretch fabrics, high abrasion resistance, and multi-pocket storage configurations, paired seamlessly with lightweight athletic duty boots. Regarding headwear mandates, except for rare formal ceremonial functions like graduation parades, frontline personnel exclusively wear breathable operational baseball caps during daily shifts, with comfortable knit beanies authorized for winter deployment. Visually, this ensemble closely mirrors that of a community sports coach or a professional outdoor guide. By shedding the icy, detached aesthetic of traditional bureaucracy, the uniform perfectly embodies the core community policing tenet that "the police are the public and the public are the police."

Beyond the external dividends of visual psychology, this regulatory modernization simultaneously safeguards the occupational health and biomechanical needs of frontline personnel. Traditional uniform regulations that mandate rigid duty belts force officers to concentrate 5 to 7 kilograms of essential gear—including firearms, batons, radios, and pepper spray—entirely around the lumbar spine and sacrum. This concentration remains the leading occupational cause of chronic lower back pain and sacroiliac strain among patrol officers. Addressing this crisis, the Victoria Police in Australia introduced a scientific solution through comprehensive regulatory amendments. They pioneered the widespread rollout of ergonomic, integrated, lightweight load-bearing vests (LBVs). This policy permits officers to transfer heavy gear from their waistlines to the chest and abdominal regions of a tactical vest, utilizing the body's core torso to evenly distribute weight. Crucially, to prevent these load-bearing vests from appearing overly militaristic or aggressive to civilians, the regulations strictly mandate that the vest color must remain perfectly color-matched to the deep navy blue of the operational polo shirt, thereby achieving a precise equilibrium between officer skeletal health and a approachable public presentation.

In summary, the transition of global police uniforms from tokens of rigid authority to platforms of functional athleisure is not a superficial, transient fashion trend; it represents a rational institutional restructuring grounded in physiology, ergonomics, and public psychology. By prioritizing utilitarian efficacy over archaic bureaucratic dogmas, these updated regulations drastically improve the physical comfort and tactical agility of frontline officers, reducing muscle strains during high-intensity foot pursuits. More importantly, it successfully retranslates the visual identity of the police officer from a "street deterrent" into a "community partner." This framework of logistical reform, blending scientific data with human-centric policy, offers an invaluable international blueprint for modern municipal governance on leveraging micro-visual management to optimize public relations and community safety infrastructure.

筆友計劃
PEN PAL PROJECT

除了通過旅行的形式去幫助會員廣交好友外，我們認為這種尋找筆友的方式將使會員能夠在互動下提高外語水平，甚至外地文化等。

It is important to help members create bonds of friendship through travelling, but also this search for correspondents will allow members to interact, improve foreign language and very often result in a meeting with their pen pal.

住宿接待計劃
HOSTING PROJECT

除了國際警察住宿服務（IPA House），我們眾多的會員亦有向其他海外會員提供住宿招待服務。有見及此，我們希望整合並且深化這項計劃，讓更多會員在出遊時能夠更容易配對到合適的當地住宿招待服務。

You can now offer to host members and their families from abroad whilst on their travels. Should you wish to offer to host members in your property, you can now do by completing the attached form and your property will be added central database of hosting accommodation.

國際警察住宿服務
IPA HOUSE AND ACCOMMODATIONS

國際警察協會（IPA）目前在16個分會的支持下，擁有超過40個物業，為會員在外遊時提供一個優惠的住宿服務。有興趣人士，歡迎掃描下面的二維碼參閱最新版本的IPA Hosting Book以瞭解更多關於住宿服務的資訊。

The IPA owns more than 40 properties in 16 IPA sections where members can stay in reasonably priced accommodation. Have a look in our IPA Hosting Book, which is regularly updated and provides an overview of each IPA House and Other Accommodation option:

警務學術獎學金
ARTHUR TROOP SCHOLARSHIP

警務學術獎學金（ATS）作為本會創辦人亞瑟（Arthur Troop）的遺產，該計劃旨在鼓勵和協助會員提升並持續進修其專業領域上的技能和知識。有興趣的會員，歡迎聯絡行政辦公室。

The Arthur Troop Scholarship (ATS), as a legacy to Arthur Troop, the founder of IPA, is a professional education and advanced training bursary, with the aim of aiding IPA members in their professional careers and promoting the International Police Association. For further information, please do not hesitate to contact your Section.
